◆ ◆ ◆
In the Third Annual Spring Sale of the Northern Indiana Polled Shorthorn Breeders' Association, the quality of the offering is by far superior to anything in previous sales. Not only are many of the greatest cattle of the breed produced in North Indiana but buyers who have purchased from this sale have always found that they bought wisely. Remember the 1946 International Grand Champion Polled Shorthorn bull is a product of the famous bloodlines that are in strong force in this territory. The cattle to be offered in this sale display the character and quality that can result only from good breeding. The prospective herd bulls are a grand lot and many of them are ready for immediate service. The females include cows with calves at foot, bred cows, bred heifers and open heifers. Many of the bred heifers will carry the service of the greatest selection of young herd bulls ever used in Northern Indiana herds. These cattle are not in a high state of finish but exactly in the right condition to deliver maximum profits to the new owners. This sale provides a fine opportunity for you to buy the right kind of modern cattle at the right price.

SALE STARTS AT 12:30 P. M.

A group of cows in the permanent breeding herd at Collins Farm.

It's Difficult

. . . to buy Polled Shorthorn Cattle at private treaty. All of those that are offered in this sale could have been sold very easily . . . but they have been held for this sale . . . There are 50 of them . . . a fine selection.

BUY THE KIND THAT HAVE A BRIGHT FUTURE - -

Polled Shorthorns are the most practical and most profitable cattle for Corn Belt farms to-day. Packer buyers pay a premium for fat cattle without horns; farmer bull buyers prefer the hornless type; small breeders are buying Polled bulls in order to more easily fit the farmer needs; there is no doubt but that Polled Shorthorns are the "Ultimate Type." The future is bright. Present prices are moderate. Why not buy now? This sale provides a good source of supply.
